OAuth2

External authentication from OC through AuthPDO

<https://www.dokuwiki.org/plugin:authpdo#configuration>

OC9: SQL Statement to select the data of a single user

```
SELECT oc_users.uid AS 'id',  
oc_users.displayname AS 'name',  
oc_users.password AS 'pass',  
oc_preferences.configvalue AS 'mail' FROM oc_users INNER JOIN oc_preferences  
ON oc_users.uid=oc_preferences.userid  
WHERE oc_users.uid = 'admin' AND oc_preferences.configkey = 'email'
```

OC 9: Statement to select all groups of a single user

```
SELECT oc_group_user.gid FROM oc_group_user WHERE oc_group_user.uid =  
'thommie'
```

OC 9: Statement to select all available groups

```
SELECT gid FROM `oc_groups` WHERE 1
```

OC10: PDO Statement to select the data of a single user

```
SELECT "oc_accounts.user_id" as "user",  
"oc_accounts.display_name" as "name",  
"oc_accounts.email" as "mail",  
"substr(oc_users.password, 3)" as "hash"  
FROM "oc_users" LEFT JOIN "oc_users" ON "oc_accounts.user_id=oc_users.uid"
```

```
WHERE "oc_accounts.user_id" LIKE :user
```
